

IP Fax Messaging Software for Enterprises and Workgroups

FAXport IP Fax Messaging software allows users from their desktop and anywhere on the network—to prepare, preview, send, and receive faxes.

Through integrating FAXport with e-mail and the most common applications, FAXport becomes a part of everyday activities. FAXport is a feature-rich technology that provides economical network faxing capabilities and improved productivity, eliminating the need for dedicated fax machines and phone lines.

FAXport is a feature-rich technology that provides economical network faxing capabilities and improved productivity.

FAXport Benefits the User Tremendously

Complete Desktop Integration

Allows users to send and receive faxes directly from e-mail clients or from Windows applications.

Minimum Need for User Training

Through the addition of a "Fax To" button, sending a fax from Microsoft Outlook is as easy as sending e-mail.

Multi-platform Capability

Enables faxing from Microsoft Exchange, Lotus Notes/Domino, Citrix WinFrame and MetaFrame, and Microsoft Terminal Server, as well as, Windows XP, NT, and 2000 operating systems.

Supports legacy platforms

When powered by TRANSport, FAXport enables automatic delivery of mission-critical documents from legacy platforms, such as: Open VMS, Unix / Linux, NT, AS/4000, IBM Mainframes, DOS / Novell.

Inbound faxing and Routing

Dialed Number ID (DNIS) and DID support, routes incoming faxes directly to the recipients' desktops. This allows the user to get secure faxes anywhere, anytime, any place, and on any device.

Print Messages & e-mail on remote fax machines

FAXport offers comprehensive printing solutions from wireless devices to any fax machine, when powered by SMSport.

Fax Broadcasting

Fax broadcasting with mail-merge capabilities is easy to use, fast, and efficient. FAXport also provides an enhanced integration with an IP Fax solution managed by OpenFax (visit www.faxportip.com).

Or look us up at www.faxport.com for a reseller in your area.

Centralized control and friendly user management

Provides full reporting on all incoming and outgoing faxes, including senders, recipients, and fax numbers. Users can track in real time their fax status.

Centralized security and Remote Administration

Integrated with the Corporate LAN security standards, enables administrators to assign users to groups, set access limits to faxes and attachments. Sensitive business transactions may first require approval or be monitored before transmission.

Firewall Friendly

FAXport has its own IEEE assigned sockets that lets the user configure the firewall.

APIs for application integration

An extensive set of powerful APIs allow complete integration of fax functionality into almost any Windows or Web-based application.

Flexible installation & Intuitive Set-up

Installs to every desktop on the network in a few easy steps. Once the network manager has installed the FAXport server and Gateway, the users then click on the icon that automatically installs the client software on their desktop.

Faxport Inc. Experienced Supplier of Universal Messaging Technology to Enterprises

FAXport Inc. is an experienced, well-established supplier of enterprise fax and universal messaging solutions. Our customers range from large distributed user-base organizations to small workgroups, including government institutions, manufacturing companies, universities, financial institutions as well as service-oriented companies.

A Comprehensive Family of Universal Messaging Products

WINport

A dial-out Networking software provides cost-effective access to online services, and terminal applications through shared modems.

TRANSport

Automates the delivery of mission-critical documents by providing a powerful electronic document delivery mechanism.

SMSport

Enables Enterprise users and applications to send and receive messages "to" and "from" mobile phones. Powered by FAXport, SMSport offers the wireless users a printing solution from the wireless device to any fax machine.

RASport

RASport makes existing NT RAS hardware available to WINport for Dial-OUT Networking as well as to FAXport for outbound and inbound faxing.
